FOR IMMEDIATE RELEASE

**BERMUDA MINISTRY OF EDUCATION PURCHASES
TWO SOFTWARE SOLUTIONS FROM eSCHOOL SOLUTIONS**

Orlando, Fla. – The Bermuda Ministry of Education recently purchased SmartFind*Express* and eSS Data Link from eSchool Solutions – the leading provider of preK-12 administrative software and technology solutions.

SmartFind*Express* is the most comprehensive substitute management solution available – helping districts increase fill rates and maximize operational resources. eSS Data Link is a patent-pending, SIF-certified interface that eliminates redundant data entry by connecting payroll and HR software with other eSchool Solutions programs.

The Ministry of Education said they based their decision on the software's ease of use and the potential to increase efficiency. The Ministry plans to implement both programs this fall.

eSchool Solutions (www.eschoolsolutions.com) is the leading provider of integrated technology solutions for the preK-12 education market. The company serves more than 600 school systems encompassing 29,000 schools in North America, providing innovative educational management software and consulting solutions.
