FOR IMMEDIATE RELEASE

eSCHOOL SOLUTIONS ANNOUNCES MARCH WEBINAR

Topic examines reducing substitute management costs by pooling resources

Orlando, Fla. – eSchool Solutions – the leading provider of preK-12 administrative software and technology solutions – is hosting a free, interactive webinar about improving substitute management through the company’s Shared Direct Response (SDR) Team.

The webinar, which will take place on March 24 at 1:00 p.m., will explain how the SDR team strengthens substitute management for “pods” of school districts – about 6 to 8 districts per group. Two eSchool Solutions employees, dedicated solely to these districts and available 24 hours a day, manage SmartFindExpress projects and performance, measure progress against benchmarks and get fill rates above 95 percent. Districts currently working with a team will also be participating in the webinar to share their experiences.

To register or find out more information about the March webinar, visit <https://www2.gotomeeting.com/register/231185777>.

eSchool Solutions (www.eschoolsolutions.com) is the leading provider of integrated technology solutions for the preK-12 education market. The company serves more than 600 school systems encompassing 29,000 schools in North America, providing innovative educational management software and consulting solutions.
