**NEW YORK CITY DEPARTMENT OF EDUCATION PURCHASES
SMARTFINDSOLUTIONS TO ENHANCE SUBSTITUTE MANAGEMENT**

Orlando, Fla. – The New York City Department of Education (NYC DOE) recently purchased SmartFind*Solutions* from eSchool Solutions – the nation’s leading provider of preK-12 administrative software and technology solutions. This new product, which includes dedicated support personnel, will improve the efficiency of the NYC DOE’s substitute management process.

For the past three years, NYC DOE has relied on SmartFind*Express* – eSchool Solutions’ flagship service – to streamline the process of identifying and placing an average of 2,500 substitute teachers per day.

Used by 600 preK-12 school districts – including Toronto, Los Angeles and Clark County (Nev.) – across the United States and Canada, SmartFind*Express* is the nation’s leading substitute management software. The program enables preK-12 school districts to match classrooms needs with substitutes’ skills. As a result, *qualified* substitutes are placed in classrooms – helping to reduce the impact of teacher absenteeism.

“With this purchase, NYC DOE will have dedicated support service personnel to answer their questions and meet specific needs,” said eSchool Solutions’ CEO Brett Fadeley. “This is a relatively new service for eSchool Solutions, but we feel it’s the next logical step as we strive to be a total solutions provider.”

eSchool Solutions (www.eschoolsolutions.com) is the leading provider of integrated technology solutions for the preK-12 education market. The company serves more than 600 school systems encompassing 29,000 schools in North America, providing innovative educational management software and consulting solutions.
