eSCHOOL SOLUTIONS CREATES NEW DIVISION, LINE OF SERVICES

Orlando, Fla. – eSchool Solutions – the leading provider of preK-12 administrative software and technology solutions – recently established a new division to support school districts’ efforts to increase operational efficiencies. The new division, called the Professional Services Organization, will set benchmarks and goals based on district-specific quantitative and analytical research.

Currently, eSchool Solutions’ Professional Services Organization focuses on identifying strategies to help districts reduce teacher absenteeism, enhance substitute management, and optimize technology systems. eSchool Solutions anticipates offering additional services in the future.

“The goal of the Professional Services Organization is to help districts leverage technology to alleviate their pain points and maximize their resources,” said Russell Long, vice president of professional services for eSchool Solutions. “Whether we’re helping districts recruit and maintain highly qualified subs ... identifying issues that contribute to teacher absenteeism ... or providing additional technical services, we’re focused on providing data-driven, strategic, measurable steps.”

eSchool Solutions (www.eschoolsolutions.com) is the leading provider of integrated technology solutions for the preK-12 education market. The company serves more than 600 school systems encompassing 29,000 schools in North America, providing innovative educational management software and consulting solutions.
